# THERMOFINDER

Infrared Forehead Thermometer

## Special Feature

- No Probe Filter
- Back Light Function for dark place
- LCD Display for digital display
- Multi-measurement (Body Temperature, Wide Temperature)
- Body temperature Data Store, maximum 32
- Non-Contact measurement for the virus transmission
- Easy measurement
- Automatically Power Off
- Power Supply : AAA Type Battery
- Pocket Size

## SPECIFICATIONS

Measurement method	Infrared measurement, Non-Contact measurement
Operation Temperature	15~40°C (59 ~ 104°F ), Relative humidity ≤ 95%
Custody Temperature	-20~50°C (-4 ~ 122°F)
Measurement distance	2~3cm from the forehead center
Measurement range	Body temperature : 34.0 ~ 42.5°C (93.2 ~ 108.5°F) Accuracy ±0.2°C (36 ~ 39°C ) ±0.3°C (34.0 ~ 33.9°C , 39.1~42.5°C ) Wide temperature : 15 ~ 60°C (59 ~ 140°F) Accuracy ±2°C or ±2%
Response time	1 second
Resolution	0.1°C
Memory	Automatically Body Temperature data(maximum 32) stored
Back-Light	If measurement complete, lighted 2 seconds
Automatic Power off	If not press any button in a minute, automatically ended
Accessory	FS-300 1 set, Support 1EA, Manual 1 volume, Battery(AAA type) 2EA
Power supply	DC3V ( AAA 1.5V Battery 2 EA )

In distance 2~3cm from the forehead center
