

## Intellisense Blood Pressure Monitor - Model EF-36-7200

- **Blood Pressure Level Indicator** - useful reference guide to high blood pressure, making home blood pressure monitoring easier. This helps eliminate the guessing work in interpreting blood pressure readings taken from home monitors.
- Large and clear display- easy to read
- Detects irregular heartbeat
- Detects body movement - hence for more accurate measurement readings
- Memory for 60 sets of readings with date and time
- Displays average of last three readings taken within last 10 minutes
